Why Work at Xangars?

Training, Mentoring, and Support

We invest in your career development whether you're an intern or industry veteran. To make you successful, we offer:
In-Depth Training:
      Technical and business readiness training from our leadership and outside experts.
Mentorship:
      Live project mentorship from experienced seniors.
Help Desk:
      An internal developer help desk to guide you through technical and business challenges.
"Xangars offers in itself a very great learning environment to every employee, which keeps the fire of learning and growing alive."
Tanvi Sharma,
HR Generalist at Xangars (Delhi University, BA '21)

Innovative Products and Client Exposure

At Xangars, you'll be building the future. We've developed and continue to expand our product suite focused on cutting-edge technologies such as:
Insurance Tech
Blockchain
IoT

Even interns and freshers get to work on live projects with industry-leading clients in these booming fields.
"I learned Java, Spring Boot, Postman, Sonarqube, Git, etc. Apart from these, I gained a lot of industry knowledge including new technologies, collaboration with clients, and best coding practices."
Ahmed Raza Khan,
Java Developer at Xangars (Mumbai University, BS IT '21)

Global Opportunities

Xangars' reach and team already span multiple countries and are rapidly spreading across the globe. We offer relocation opportunities for our highest-performing team members looking to level up their careers abroad.

Xangars Insuretech

Home

Welcome to Xangars Insuretech, where digital transformation in insurance is redefined!

Offerings

Revamping your business with top-of-the-class insurance technology solutions is pivotal for its growth and for creating a free-flowing insurance ecosystem. Our certified insurance IT solutions teams and domain experts make this transition seamless. Xangars excels in technology and software engineering, delivering holistic insurance technology solutions and consulting services.

Xangars Insure Supporting Components

We provide customized insurance IT solutions to insurers, producers/intermediaries, insurtechs, and other insurance service providers operating in various geographies. Our support spans from discovery to development to maintenance.

Xangars Builder

Our Product Management Toolkit (PMT), a module in our Glimpse product, lets analysts create and manage Life, Term, Health, and Annuity products.

Xangars Explorer

Xangars Explorer is our analytical tool for book-of-business-level ("what if") analysis and processing activities.

Xangars Reporter

Gain full reporting and analysis for all data stored or imported into the Xangars Insure Platform.

Xangars Monitor

Our production support team proactively monitors all customer platform usage 24/7/365.

Insurance Microservices

Xangars enables insurtechs to launch innovative, high-performing products with a microservice architecture. With decades of experience, we understand the limitations of traditional monolithic policy administration systems. Our microservice foundation cuts speed-to-market in half, making your creativity a reality quickly.

Insurance Solutions

Life & Health Insurance
Employee Benefits Insurance

Core PAS Solutions

GLIMPSE - Core PAS
GLIMPSE - Term PAS
GLIMPSE - Credit PAS
GLIMPSE - Pension PAS
GLIMPSE - Micro Insurance PAS
GLIMPSE - PMJJBY PAS
GLIMPSE - Intelligent Insurance Automation

Customer Portal

PACE - Digital Portal for Accelerated Common Engagement
Pre-business & Claim Investigation
Business Intelligence Suite
Employee Benefits (Mobile)
Customer Navigator (Mobile)
Communicator (Mobile)

Differentiators

Xangars offers all the policy administration microservices needed to build a completely custom, scalable, and API-centric insurance and service contract platform. Carriers, managing general agencies, and program administrators can now create unique API-centric technology platforms and customer ecosystems, reducing costs and time to market while opening new revenue opportunities.

Technology Trends in Insurance

Predictive Analytics and AI
Robotic Process Automation (RPA)
Microservices
Fully Configurable Platforms

Cloud Infrastructure

Our platform is built using microservices, private and public APIs, DevOps, and agile methodologies. We ensure performance with up-time and issue response time service-level agreements. Our centralized, interoperable services are more secure, flexible, and reliable than on-premises infrastructure or public cloud solutions.

Self-Service Toolkit

The toolkit used by Business Analysts to create and manage both Personal and Commercial P&C insurance products in the Xangars Platform. All Xangars insurance products are developed and maintained in the Xangars Product Management Tool (PMT).

Reporting & Data Analysis

Xangars Insure supports full reporting and analysis for all data stored or imported into the Xangars Insure Platform. Our reporting platform includes a predefined set of OLAP Cubes for business users to develop and generate custom reports, with capabilities for pivoting and exporting data in various formats.

Jobs & Careers

Explore career opportunities with Xangars and join our team of experts driving innovation in the insurance industry.

Life@Xangars

We believe that in order to do our best work, we need time to recharge and have fun.
Flexibility
We recognize the priority of family commitments, so we always try to accommodate everyone's unique needs. We offer flexible working schedules, whether you're only comfortable traveling during the daylight hours or need to pick up your kids from school.

"I'm able to play badminton with my son even after work. He waits for me. All of this is possible because of Xangars."
 Abha Dikshit, Head of Delivery at Xangars

"It's very friendly. They give us flexibility. They allow us to grow. People are there to help. I can call Rajesh any time and tell him these are my concerns. I have not seen any such culture in any other company. They will listen! That is a really good thing."
 Divya Kanparia, Xangars Software Developer

Moreover, we offer the following benefits to full-time employees:
24 leaves per working year
6 months maternity leave
Medical insurance
Diversity
As a global company, diversity is in our DNA. We actively recruit and foster inclusion on Xangars' team because we know different perspectives make us stronger.
Women, working moms, and those returning to the workforce are a special focus for us. Moreover, women lead critical parts of our business — our Head of Operations, Head of Delivery, and Head of Innovation Education are all women.
Team Bonding
Throughout the year, we celebrate festivals and have fun together. Whether it's garba or Secret Santa, we love to go offline and play as a team!

Who Should Apply?

Love to learn:
Whether .NET or Networking, SQL or Sales & Marketing, our team is fueled by curiosity to learn new skills to better serve our customers.
Know when to ask for help:
We don't expect you to work alone or know everything all the time. Everyone from our CEO to the most junior team members are eager to help you succeed... so just ask.
Obsess about innovations:
Building industry-best productions and solutions needs new ways of thinking. We're creative, agile, and open-minded.
Deliver on your commitments:
You do what you promise, and you do it on time. Period.

Join Our Team!

Application Process

We make applying to work at Xangars as simple and transparent as possible.
Application Form:
It is an official document that employers want their job candidates to fill in while applying for a job.
Skills Assessment:

Skill assessment is the comparison of actual performance of a skill.

Evaluation of whether the performance meets or exceeds the requirements.

HR Team:

You can expect high-level, general questions about you, your past work experience, and your motive for looking for a new position.

Hiring Manager:

The hiring manager will conduct an in-depth conversation with the applicant about their background, work experience, skills, knowledge about the company, and more.

Last Leg:

From application to offer letter, our process normally takes 1-2 weeks.
